

HOPPER LECTURE

Sponsored by the International Development Research Centre (IDRC) in honour of its first president, David Hopper.

THE BROADER STORY OF PROGRESS

Building collective action on the margins:
gender perspectives from South Asia.

“Research that is intellectually challenging in its own right and which constantly engages with policy and practice has been at the core of all my efforts.”

Dr Naila Kabeer's central motivation has been to position herself with those in the Global South who normally don't get heard in feminism and development.
